Meeting Called to order at 6:36 PM EST

 - i. Comptroller Fountain moves to open the gallery
 - 1. Motion seconded
 - 2. Motion passed

\$ "# New Business

- . Swearing in Justices
- . Jess Eads & Jean Peden Christodoulou Visit Senate!
 - i. Jean Peden Christodoulou: I spent 8 years working with students across many organizations on campus that help with students. Kept students compliant with COVID regulations. Moved over to work as Chief advisor on Dr.Poser's staff. Help enact Poser's vision for Hofstra. Bringing past experiences to Hofstra on Poser's board. Work closely with Poser's Cabinet. If anyone ever needs anything please contact me with concerns or questions.
 - ii. Jess Eads: A Hofstra alumni, started working as a research assistant, moved onto admissions. I am the dean of admissions. Wasn't able to continue with promises made to prospective students beyond admission as VP of Enrollment so thi

Needs students' opinion if we're doing the right thing. Actively listening to what the goals and wants of the student body is.

iii. Questions:

1. Chair Jackson: I'm the equity and inclusion chair. Could you elaborate on the University's policies with religious holidays and how professors can help be more sensitive to their religious observances?
 - a. Jean: Faculty get info from Provost office and asked to make sure activity can be made up. Given a list of observed holidays and told they can have someone cover them on their observed holidays. Work together and be communicative from both students and faculty. Not spelled out word by word exactly what to say.
 - b.

4. Senator Papsadero: I sit on the wellness and campus safety committee. Chair Stadaker is working on a free menstrual product proposal in bathrooms on campus. What are your thoughts about this proposal?

incredible program. Of all the students we admit, how many people actually choose us? Our arts and comms department have the highest yields, so it is definitely not going to be forgotten

- b. Jean: Strengthening and defining our core liberal arts programs. It's not just research, but all of it.
8. Senator Genfound: Is there a way to implement better training into mental and physical health for students and sensitivity from professors?
- a. Jess: mental health is another thing that is top on our priority list- how can we set up our students for success and make sure students have what they need to do so. We have a whole wellness area so we can support you outside of the classroom- but in the classroom is also important so we are coming up with ways to inform and train the professors, and looking for the best way to train them.
9. Chair Giovannagelo: One of the biggest things in my committee is the 18th credit and how our tuition only covers 17 credits. Is there any information about this initiative?
- a. Jess: It is something we are looking at and trying to understand. Lots of ways to look at this but it remains a priority.
10. Senator Barone: I was recently put on probation while taking a mental health break. Are there any guidelines professors can follow for the mental health of students?
- a. Jess: We have a lot of work to do regarding this. No college campus really knows what to do. It may on paper seem very simple but it is actually very complex and needs a lot of thinking to find a solution- we need to find one, but it is not that simple. Unintended consequences happen from too quick of action.
 - b. Jean: I do believe in the importance of mental health of students. We need to figure out how to respond to these concerns and have people who are active listeners. Regarding the policy, we want to be able to voice how there is no strong attendance policy in the institution. Flexibility allows for many issues and makes things complicated.
11. Chair Boothe: I'm the programming chair. I'm an RA in Csquare and you worked right away on the hydration station. I appreciate

15. Senator Genfound: Are there any ways to push hours earlier for fitness for those with early class.

- a. That will be round two. We wanted to make sure we got this first, but I will definitely keep pushing
- b. Jean: Because of budgeting, there weren't any ways to have longer hours. Now they will monitor these hours and see if students will use these facilities. Make sure to spread the word about these new hours.

16. Chair Decresenzo moves to close the gallery

- a. Motion seconded
- b. Motion passed

17. Comptroller Fountain moves for a five minute recess

- a. Motion seconded

. Constitutional Benchmark

. [.2022.87.007](#)

- i. Chair DeCrescenzo: This is about the new external advocacy branch of SGA. This will be for organizations who do not feel like they are a club and want to work more closely with advocacy and students. Previously, there was no official rules so the aim was to make simple terms for rules and regulations of advocacy groups. Rules include external advocacy groups must be in full adherence of the SGA policy series, they must be undergraduate students enrolled at Hofstra. Each EAG must appoint a liaison, they will sit on committees and come to Senate monthly, want to have clear communication of SGA and a person on the EAB. Should SGA decide to change any rules or procedures regarding the EAB the representative must attend the Senate meeting. Failure to follow these rules is defined as a misconduct and may result in a suspension of partnership with SGA.
- ii. Senator Siegel: What is the difference between EAB and EAG?
- iii. Chair DeCrescenzo: They are two different things. They will not be officially apart of Senate.
- iv. Comptroller Fountain: Making it so that they are not a member of gallery and can speak freely.
- v. Chair Anniballi: The EAB is made up of external advocacy groups.
- vi. Chair Boothe: Why are we linking them to a Senatorial Action instead of the constitution?
- vii. Chair Anniballi: Since these are policies we decided to put it towards the policy series as a Senatorial Action.
- viii. Senator Guenford: What is the reason for the EAB's not being on Senate?

ix. President Germaine: This was something we passed in the 86th senate.

it is in the policy series. Also it makes it easy to remind treasurers about what are the proper ways to make a budget.

- a. Chair Anniballi: I wanted to be careful with this language and I wanted it to be more so that treasurer training is going to happen semesterly, but I also want to confirm that this is just a base level power for the appropriations chair.
4. Chair Jackson: Is this a normal majority vote?

- x. Chair Boothe: Hello! I have been sharing the app! I am just wondering about doors that have been locking, and I was wondering how this could be addressed because the mechanism seems to not be working properly- it doesn't lock properly.
1. It may be a number of things. If you call us we were certainly do our best to alleviate the problems
- xi. Chair Atlas: I was wondering about fire safety. I heard a fire alarm go off and no one responded- I was wondering what the criteria is for someone to respond.

1. I have not heard anything of this, and we do not plan on doing this

- xiv. Senator Siegel: I have heard some students have been locked out for long periods of time and I was wondering if that is normal or if it is supposed to be a quicker response so people can get back in?
1. These students should not be waiting that long but a lock out is unfortunately pushed

to the bottom of the list depending on what is occurring during the same time period.
